Insp Ryan,

Mike, thank you for providing this information. I have tasked A/S/Sgt Cairns to advise the Traffic NCOs of the expectations and have tasked him with advising the Traffic Team of the weekend deployment plan and new start time.

We will need to keep in mind the staffing resources required to execute the Joint Enforcement Plan that Troy is working on.

Denis

Denis, I spoke to Rob in the SCC and he confirmed the following:

1. You can leave your Friday shift as scheduled (days and afternoons) Other than tomorrow mornings early deployment to assist ESU, Rob is not aware of any other ESU related requests that may require traffic.
2. For Saturday and Sunday, you can have all available TEE and MDT officers scheduled for dayshift, **06:00 hrs start** (same deployment as last two weekends)
3. Rob has forwarded the planning request from the ADC, forwarded by Chris Rheume, up to Superintendent Patterson for decision. As of 15:00 hrs, decision still pending. At this point in time, the below referenced expanded hardening is not on the table. We are utilizing the operational plans currently under development as well as the traffic plan upgraded from last weekend's deployment. (where all ingress and egress points have been previously hardened with jersey barriers)

4. Rob indicates that our taskings will be the same as last two weekends, specifically, CONVOY escort and traffic control (subject to the other plans currently under development i.e. support to ESU Operations, **CVI Enforcement Check Points** & the "removal of vehicles plan")
5. Inspector Russ Lucas in NCRCC will reassign TEE assets as required throughout the weekend, dependent on crowd dynamics.

Denis, hopefully I've captured everything you requested to be clarified.

Rob Bernier, if I've under stated or over stated anything from our 15:15 hrs conversation, please feel free to weigh in.
mike

Importance: High

Howdy Rob. Hoping you're keeping your lips above the water line over their at the SCC.

Rob can you please confirm ASAP that this planning request from the ADC on Monday past, is in your current planning queue?

Additionally, as we try to scope out current taskings for TEE /ICM/MDT, have you forecasted how my resources will be deployed this coming weekend (specifically Friday, Saturday and Sunday). TEE returned to regular shifts this past Monday and if we are to redeploy all assets on Friday, we are now outside the CBA 72 hour notice of shift change for Friday).

I'm assuming the same deployment schedule as last two weekends; of all staff re-assigned to day shift for Saturday and Sunday.

Kind thanks,
Michael Ryan,
Inspector,
TEE, Courts & Custody,
Specialized Policing Directorate.

Good Evening,

I would like to get ourselves thinking about the weekend, and I know you are swamped with the minute by minute stuff, Patts.

I would like, Chris if you can work on developing a plan to harden up our posture and consider things like limited points of access with the use of barriers and entry points, staffed by our officers. We have the use of a whole lot of new concrete barriers and vehicles to put them in place.

This would need to be set up for Friday morning at 8 am.

If we need to combine this with a traffic plan and updated Ops plan, please look into that.

If we need a meeting to discuss or clarify, let me know- happy to set something up before the 9 am tomorrow or when works for both of you.

Trish
